

NEWSLETTER 2012

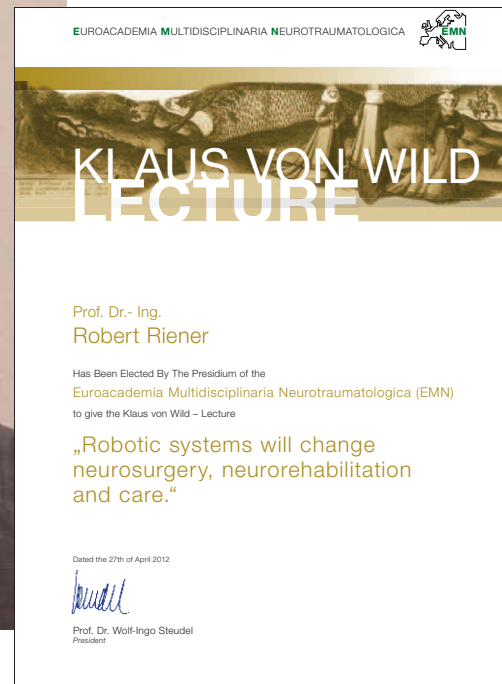

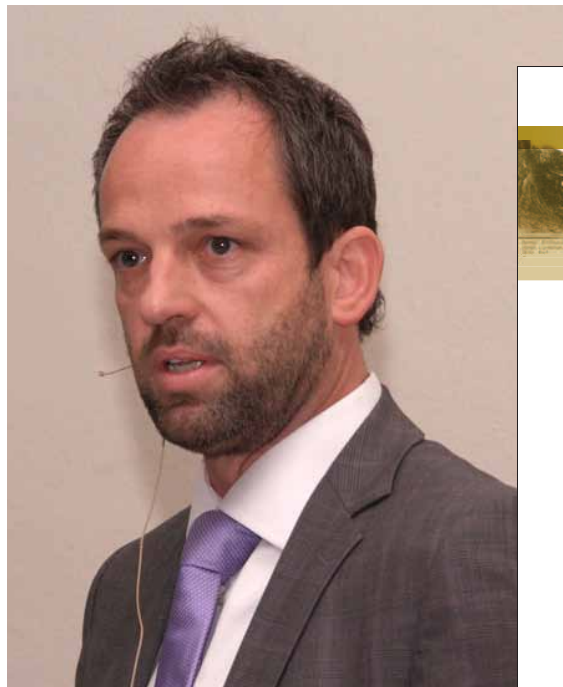

JULY 2012

*Dear fellow academicians,
dear colleagues, dear friends*

Stefan Florian had organized that wonderful meeting at beautiful Cluj-Napoca with over 120 participants. The scientific program of our 17th EMN Congress included various lectures on cranial-vertebral pathologies, advances in pre-clinical and first-aid management in neurointensive care. A special aspect concerned decompressive craniotomy, assessment of outcome and quality of life and clinical trials in TBI.

Traditionally we had our Klaus-von-Wild lecture, presented by Robert Riener. The topic was: „Robotic systems will change neurosurgery, neurorehabilitation and care“

This congress was the first one with the new presidium.

We thank Stefan Florian and his team for their excellent job!

Results of the members meeting

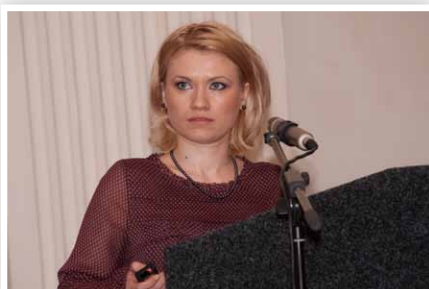

We have the pleasure to announce the honourings by the members meeting: Professor David Mendelow and Professor Jacques de Reuck become Honorary Presidents.

We welcome as new members:

- Lina Aimola
- Owen Sparrow
- Alison Jones
- Bogdan Popescu
- Douglas Gentlemen

Impressions of the 17th EMN Meeting in Cluj-Napoca

Last not least we will invite you to our 18th EMN Annual Meeting in St. Petersburg, Russia on April 26-27, 2013. This meeting will be organized by Professor Alexander Potapov.

Best wishes

Wolf-Ingo Steudel
President

Stefan Florian
General Secretary
