

Dear colleagues and friends,

I would like to express my gratitude for the valuable contributions you made to our **EMN Congress** in Warsaw, which was organized by Prof. Waldemar Koszewski and Prof. Zbigniew Czernicki.

***Traumatic Brain Injury.
Change of treatment paradigms.***

I believe that each of us enjoyed Chopin's city and had a quality time together. It is only through the contribution of each participant that the goal of Cooperation, Science and Friendship to the benefit of the patient, can be achieved in the spirit of EMN.

NEWSLETTER 2019

The scientific programme of the **24th EMN Congress** was comprehensive, consisting in more than 40 oral presentations. Prestigious invited speakers honored the invitation at this congress and came from all over Europe.

Traditionally we had our Klaus von Wild lecture presented by Jurgen Meixensberger: “Targeted therapies for intracranial brain crisis after sever TBI: where we are”.

During the congress we had the pleasure to welcome new members: Oleg Zeitsev and Vanessa Hubertus.

NEWSLETTER 2019

The social and touristic program was a real delight: Welcome cocktail at Staszic Palace, private piano concert at Chopin's Museum, a guided tour of Warsaw ended with a lovely gala dinner in the old town.

Hoping that everything you experienced during the congress period met your expectations, I look forward to meeting you all at the **25th EMN Congress, Anniversary Edition** in Salzburg!
